SUMMARY

With over 3.5 years as a QA Engineer, I excel in Agile and Scrum methodologies. My strengths lie in optimizing test processes and documenting defects effectively, ensuring top-notch software solutions. I am flexible and adaptable, continuously learning new functionalities. My experience spans Manual and Automation, Web and Mobile Application Testing, including End to End, Sanity, Functional, and Regression Testing. I have collaborated with cross-functional teams including clients, designers, and developers, and used JIRA to track defects and ensure product quality. Proficient in agile methods such as sprint reviews, sprint planning, backlog, and retrospective calls, I align with client requirements & deliver timely results. Experienced with API tools like Postman, I have developed and implemented comprehensive test strategies and executed test cases efficiently with seamless test data preparation. Currently seeking a role in a growth-oriented organization to leverage & further develop my technical and soft skills.

PROFESSIONAL EXPERIENCE

Infosys, Associate Consultant (QA)

12/2023 – present | Pune, India

- Managed a QA team in a high-velocity Agile environment, ensuring timely delivery and quality standards while achieving a 25% reduction in regression testing time through optimized test plans.
- Facilitated training sessions on QA best practices and tools, enhancing team capabilities and overall quality assurance processes.
- Led the execution of comprehensive test plans and cases, ensuring thorough coverage and accurate defect identification, resulting in a 30% improvement in defect identification.
- Collaborated with development teams to resolve issues and optimize processes, streamlining communication through weekly sync-ups for a 20% faster resolution of critical bugs.
- Generated detailed QA reports and metrics for clients, providing actionable insights and recommendations for continuous improvement.
- Contributed to product design reviews and created business requirement documents, influencing feature priorities and facilitating efficient sprint planning.

Accenture Solutions Pvt Ltd, Quality Engineering Analyst

05/2021 – 12/2023 | Pune, India

- Collaborated with cross-functional teams, ensuring effective communication with stakeholders, designers and development teams through Sprint Planning, Sprint Review, Backlog calls and retrospective calls.
- Analyzed business requirements from diverse sources such as clients, designers and developers to ensure product quality.
- Developed and implemented comprehensive test strategies by planning, writing, reviewing, and executing test cases, concurrently ensuring efficient test execution through the preparation of seamless test data.
- Leveraged expertise in Selenium, Java, and automation solutions for comprehensive testing throughout the Software Testing Life Cycle (STLC) and Agile methodologies, including post-release/post-implementation testing.
- Tracked client requirements and defects using JIRA to meet release standards, enhancing software performance.
- Executed 200+ automated and manual test scenarios bi-weekly, resulting in a steady release cadence with less than 2% rollback incidents.
- Played a pivotal role in a significant update of a consumer-facing app, which led to a user satisfaction increase of 20%.

- Managed a rigorous negative testing program, identifying 500+ potential fail points and proactively safeguarding user experience.
- Collaborated with stakeholders and development teams to streamline communication channels, resulting in a 20% reduction in project delays and increased overall team efficiency.

Tata Consultancy Services (TCS), Intern

02/2021 – 05/2021 | Pune, India

- Orchestrated Activation Management for the AD2 vehicle, an Advanced Driver Assistance System (ADAS).
- Developed Corresponding Model and Top Level of Model.
- Developed ability to handle query from Business & Development teams.

SKILLS

Testing Expertise

Functional, Regression, Sanity, Black Box, End to End, Interactive, Performance, GUI/UI, IoT App, Android Testing, API Testing, Integration Testing, Manual Testing and Automation Testing.

Tools and Web Services

Selenium, Eclipse, Postman, Swagger, JIRA, ALM, Confluence, Fusion, Siebel (Oracle), Jenkins, GitHub, REST, API, HTML, AWS, Azure, Trello

Other Technical and Soft Skills

Agile methodologies, Scrum frameworks, Test case creation, OSS, SQL, Java, SDLC, STLC, CI/CD, Attention to detail, communication, Problem solving, Team Collaboration, Adaptability and Critical Thinking.

PROJECTS

Open Source OrangeHRM Testing Project

2023 – 2024

- Undertook comprehensive testing for the open source HRM web application, OrangeHRM.
- I developed a meticulous Test Plan and crafted detailed Test Scenarios, leading to thorough Test Report and Bug Report generation.
- Conducted rigorous Functional Testing, GUI Testing, Usability Testing, and Compatibility Testing, ensuring a seamless user experience and robust application performance.

COURSES

Web services API Testing with Postman - Complete Guide, Udemy

Gained theoretical and practical knowledge of API Testing using Postman.

Infosys Global Agile Developer Certification, Infosys

Completed the Certified Agile course to enhance Agile project management skills. Offered by Infosys.

Cloud Platform Job Simulation, Verizon and Forage

Gained in-depth and practical knowledge of Cloud testing techniques and strategies through this certification. Provided by Verizon and Forage.

KEY ACHIEVEMENTS

Reduced Production Bugs by 20%

My rigorous testing approach & meticulous defect documentation led 20% reduction in production bugs.

Increased Test Coverage

Initiated an update to the existing testing suite that expanded coverage by 8-10% within a single quarter.

AWARDS

Accenture Success Catalyst Award (FY'23 - Q2)

2023

Awarded for collaborating with clients, communities and ecosystem to deliver exceptional value.

Spot Recognition Award, Accenture Solutions Pvt Ltd.

2023

Recognized by Domain delivery manager and client for detecting major and critical bugs in software

Certificate Of Appreciation, Infosys and Client

2024

This award was given by Infosys and Client In recognition for a record of outstanding accomplishments.
